

COVID Protocols & Information

Reminder: Keeping sick children at home continues to be the strongest way of not spreading illnesses! Thank you for being vigilant when symptoms arise.

Have COVID?

1

Contact Ms. Cottrell

Include student name, teacher and date of positive test.
DavonneCottrell@hopeschool.org
(612)-540-2822

2

5 Day Quarantine

Distance learning available for Upper School students. Lower School students will not have distance learning.

3

Evaluate Symptoms

Don't have any symptoms? Or are your symptoms resolving? Come back on the 6th day. (Do not come to school within 24 hours of a fever). Testing recommended on 5th day.

Been exposed?

Close contact: 15+ cumulative minutes within 6 feet of the person.

Vaccinated

You do not need to quarantine.
Suggested test 5 days after exposure.
Rapid test available upon request.

Unvaccinated

Contact Ms. Cottrell & stay home for 5 days. Suggested test on day 5.
Rapid test available upon request.

Current COVID Protocols:

Masks optional

Daily temp screening

Air purifiers in every class

When do we move to Distance Learning?

Lower School

*At school while infectious

Entire class moves to distance learning for up to 5 days.

in the same grade

Entire grade moves to distance learning for up to 5 days.

*From different families and all have been at school while infectious.

(Distance Learning days may be less than 5 if they occur over a weekend or non-school day).

Upper School

in the same grade

*From different families and all have been at school while infectious

Those unvaccinated in grade: Up to 5 days distance learning.

Those vaccinated in grade: Continue in-person learning.

Our Health Assistant will notify you if your child has been exposed to COVID & needs to move to Distance Learning.
